

## Wireless Letter of Authorization

Thank you for selecting ViaTalk! Number Portability allows you to keep your phone number while changing your phone service provider. Upon receipt of this form, and requested documentation, we will work with your current wireless phone service provider to transfer your number.

- 1) The service address and name on this form must be the same as the customer service record with your wireless provider, or your transfer request will be rejected.
- 2) ViaTalk will need a current copy of a phone bill, or online account summary page, that includes the number to be transferred, the account holder's name, and the billing telephone number if different than the number to be transferred.
- 3) Do NOT call your wireless provider to cancel service while we are attempting the transfer, or you will not be able to keep your phone number. (To ensure that your account has been cancelled, contact the provider three business days after the transfer completes.)
- 4) If you make changes to features or services with your wireless provider, it could delay or interrupt the transfer process.
- 5) If you have a contract with your current provider that prohibits porting, you cannot transfer your wireless number.
